

SKYLINE LIBRARY

MS. BACON

MLA Intro

NOTE: ACCESSING DATABASES FROM HOME

Passwords and other access info, including KCLS access, can be found if you click on the black star on the library home page:

NEXT: NOODLETOOLS

1. Go to NoodleTools

Have an account?

Sign in to NoodleTools

Don't have an account?

Register for one...

1. Go to [NoodleTools.com](https://www.noodletools.com) and choose "Register"
2. Complete the registration.

Suggestion: *use the same login info for NoodleTools as you use for the school computer.*

Personal ID (username): four letters of last name, three of first, two-digit grad year

Password: the same password you use for the school computer or an ASB#

The screenshot shows the NoodleTools user interface. At the top, there is a 'Sign In' section with a help icon. Below it are two input fields: 'Personal ID' and 'Password'. A 'Remember me' checkbox is located below the password field. A blue 'SIGN IN' button is positioned at the bottom of the sign-in section. Below the sign-in section is a 'Register' section. It starts with the text 'Register as a new user if you haven't used before:'. This is followed by two bullet points: 'Free for you if your school or university provides a license' and 'Individual accounts also available'. A blue 'REGISTER' button is at the bottom of the register section. An orange arrow points from the 'Register' text in the main text to the 'REGISTER' button in the screenshot. Another orange arrow points from the 'Suggestion' text to the 'Personal ID' input field in the screenshot.

TO DO: THE GENERAL INSTRUCTIONS

1. In your new Project, you will add two sources:
 - One database (copy and pasting citation)
 - One book (using the ISBN number – or an app)
2. Make a Works Cited page with these two sources in NoodleTools.
3. Copy and paste this works cited to your 9th Grade MLA Intro Template you already made.
4. Add in-text citations.
5. You will print this out and turn it in.

Go to Resources by Subject and click on “Doran”; this PP is there, start here on page 4.

Detailed instructions follow... please work independently & feel free to ask questions of us.

The next page requests that you use your headphones to listen to music – this isn't required, but give it a try if you'd like.

TUNE OUT THE NOISE, TUNE INTO MUSIC

Choices:

- 1. Listen to one of these Study Music Compilations** *(just choose one and stay with it, they are via YouTube, but you're not watching anything, just listening.)*
 - [Music for Studying and Concentration](#)
 - [Mozart for Brain Power](#)
 - [Super Intelligence Memory Music](#)
 - [IQ and Creativity Increase \(mostly rain\)](#)
 - [Peak Focus Study Music](#)
- 2. Listen to your own music** (via the web or your phone – and please choose a station/artist and stick with it, don't skip, repeat, be a DJ... – just let it play)
- 3. Or don't listen to anything...**

ADDING SOURCES TO NOODLETOOLS

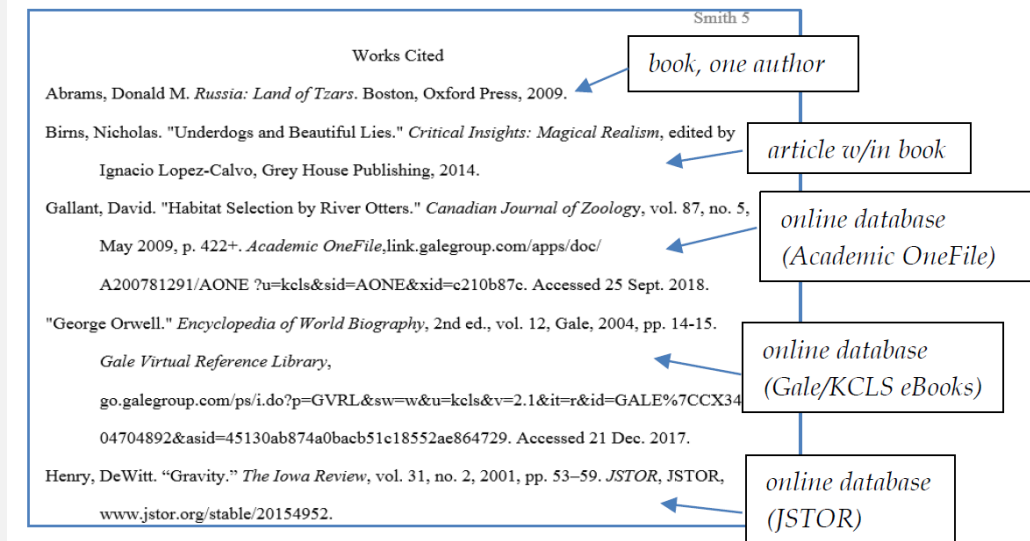

Choose “Create new citation” and select the source type...

You'll be adding:

- a database -- you already have an article open and found the citation
- &
- a book source -- there is one by your computer

Please be sure to always double-check your citations; here's an example - or check out [Purdue OWL](#).

Always check your citations (even the ones generated for you). They should look something like these

ADD A DATABASE

Since all **databases** have the citations done for you, there is an easy way to copy & paste the citation into your project.

1. Go to the citation you found in the KCLS database (you should still have it open)
2. Copy the citation
3. Go back to your NoodleTools & select “Database” for citation type, then choose the first option “Original Content...”
4. Click on the Quick cite “Copy & paste” link
5. Paste your citation and “save”

Citing: Original Content from: Online Database

Quick cite: [Copy & paste a citation](#)

Create new citation

Where is it?

What is it?

Original Content in Database	Cartoon
Conference Proceedings	Chart, T
Journal	Film or

[Here's an online how-to](#)

ADD A BOOK

Books: *if you have an Apple or Android phone and can get a free app – skip this page and go to the next two pages (citing books is very easy in NoodleTools, and if you can get the app, it’s even easier).*

For either these directions or the ones using the app – refer to the book near your computer.

1. Choose “Create new citation” > select “Print or in-hand” > then “Book”
2. When possible, find the ISBN number (on the back of the book, usually starts with 978)
3. And type the number in here, at the top of the page.
4. *If you cannot find the ISBN number, instead, locate and fill in the required info in the boxes.*

The screenshot shows the NoodleTools citation form. At the top, there are two dropdown menus: "Citing:" with "Chapter or Section" selected, and "from:" with "Book" selected. To the right are "Submit" and "Cancel" buttons. Below this is a "Quick cite:" section with a link "Copy & paste a citation". To the right of this is an "Import:" section with a dropdown menu set to "ISBN", an empty text input field, and a "Search" button. This "Import:" section is highlighted with a red box, and an orange arrow points from step 4 of the list to it. At the bottom of the form are five buttons: "Print", "Web Site", "Database", "eBook File", and "Microform". A "powered by WorldCat" logo is visible in the bottom right corner.

[Here is an online how-to](#)

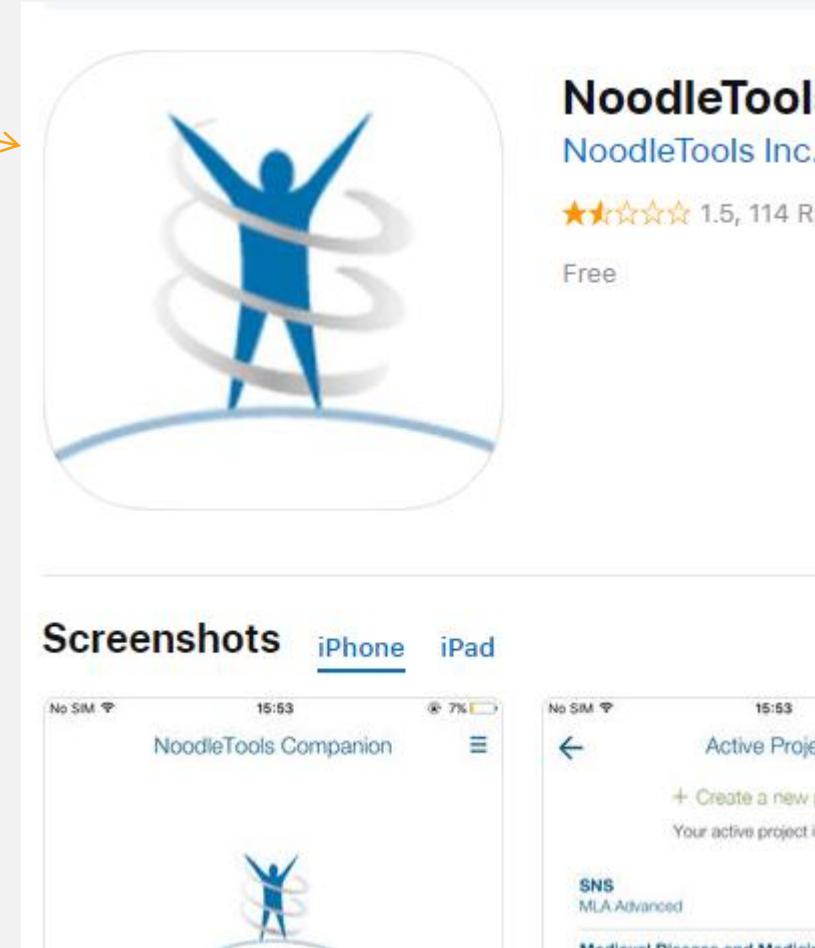

NOODLETOOLS APPLE/ANDROID APP

- Go to your app store, search for NoodleTools and download the free app.

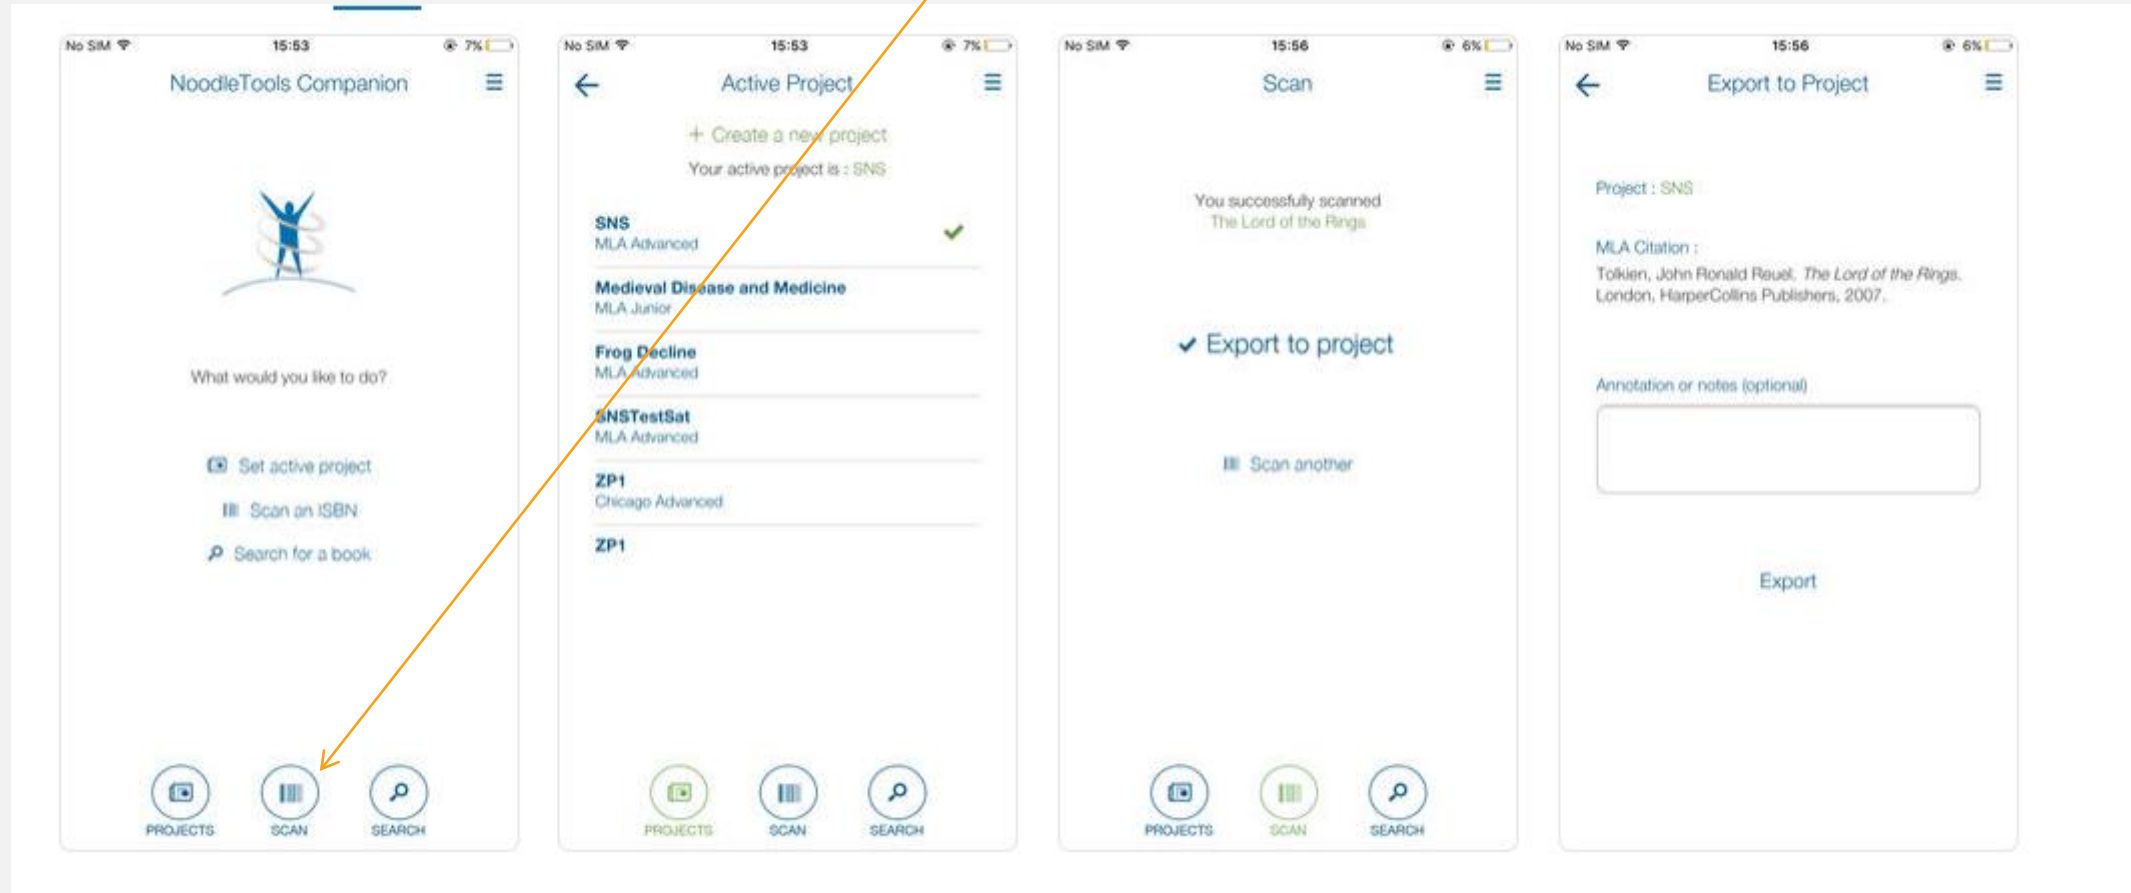

-- you'll notice that the app gets poor reviews; it's because it cannot do much...

EXCEPT, it can magically* scan the ISBN number on a book and put the complete MLA citation in your selected project☺

*it's obviously not magic, but since it does all the work for you, it seems that way

Then follow the directions on the screen – choose “scan” and it will essentially follow these steps .

CREATING A WORKS CITED PAGE IN NOODLETOOLS

1. Once you have your two sources in NoodleTools, create your Works Cited page and export it to Word (or [Google Docs](#), directions are here).

Note: do NOT just copy and paste the citations from the NoodleTools list (or directly from the databases), the formatting will be lost!

2. In your Sources list, choose “Print/Export” and choose to Word.

3. Now open the exported list and copy and paste it to the last page of your already-open 9th Grade MLA Intro document.

ADD IN-TEXT CITATIONS

- Last Step!
- On your 9th grade template, look at Page 1
- **Add the correct in-text citations in the parentheses... your two sources are on page 2.**
- Notes:
 - Remember, what goes in an in-text citation is the first word of the entry in your Works Cited – usually a last name if there is an author, if not it is the first word of the article title.
 - If the first word is in quotes, keep it in quotes.
 - For your book source, you need a page number; for this mock assignment, you can make up a page number – and just put the number, don't add 'page' or 'pg' or 'p.' example: (Smith 14).

What you will turn in will look something like this...

Page 1

Page 2

<p style="text-align: right;">Jones 1</p> <p>John Jones Mr. Smith World Studies, period 4 October 1, 2018</p> <p style="text-align: center;">Tomorrow and Today</p> <p>This is what an in-text citation looks like for my first source on my works cited page (Fleming, 42). This is what an in-text citation looks like for my second source ("Nat King Cole").</p>	<p style="text-align: right;">Jones 2</p> <p style="text-align: center;">Works Cited</p> <p>Fleming, Candace. <i>The Family Romanov: Murder, Rebellion & the Fall of Imperial Russia</i>. New York, Schwartz Wade, 2014.</p> <p>"Nat King Cole: An Incandescent Voice." <i>All Things Considered</i>, 19 Apr. 2010. <i>Biography in Context</i>, link.galegroup.com/apps/doc/A224293997/BIC1?u=kcls&xid=2af8a2f8. --	--

PRINT IT!

- Now print the assignment!
 - Our printer automatically prints double-sided
- Turn it in in the pile by the printer
- If you don't finish today, please finish before Wednesday.
