ADDING SOURCES TO NOODLETOOLS

Choose “Create new citation” and select the source type...

Please be sure to always double-check your citations; here's an example - or check out [Purdue OWL](#).

Always check your citations (even the ones generated for you). They should look something like these

The diagram shows a list of five citations under the heading 'Works Cited'. To the right of the list, there are five boxes, each containing a source type. Blue arrows point from each box to the corresponding citation. The source types are: 'book, one author' (pointing to the first citation), 'article w/in book' (pointing to the second), 'online database (Academic OneFile)' (pointing to the third), 'online database (Gale/KCLS eBooks)' (pointing to the fourth), and 'online database (JSTOR)' (pointing to the fifth). At the bottom of the diagram, a box contains the text: 'Always check your citations (even the ones generated for you). They should look something like these'.

ADD A DATABASE

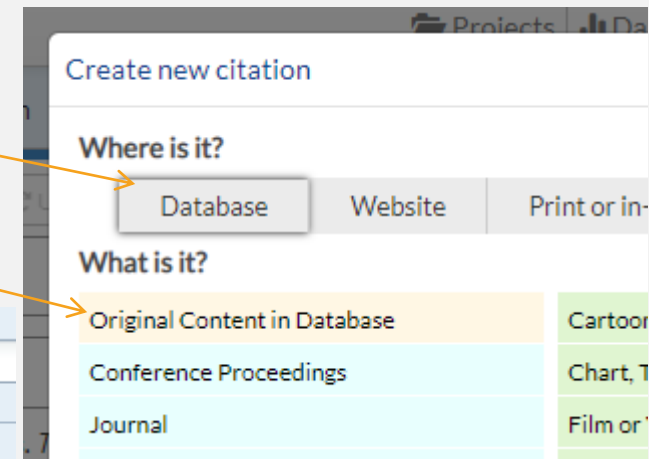

Since all **databases** have the citations done for you, there is an easy way to copy & paste the citation into your project.

1. Go to the citation you found in the KCLS database (you should still have it open)
2. Copy the citation
3. Go back to your NoodleTools & select “Database” for citation type, then choose the first option “Original Content...”
4. Click on the Quick cite “Copy & paste” link
5. Paste your citation and “save” **

**you may add all of your other court case sources here if you'd like; your minimal requirements for the assignment due Monday will be at least on database and one book – see next page)

ADD A BOOK

Books: *if you have an Apple or Android phone and can get a free app – skip this page and go to the next two pages (citing books is very easy in NoodleTools, and if you can get the app, it’s even easier).*

For either these directions or the ones using the app – refer to the book near your computer; they all have information of at least one court case.

1. Choose “Create new citation” > select “Print or in-hand” > then “Book”
2. When possible, find the ISBN number (on the back of the book, usually starts with 978)
3. And type the number in here, at the top of the page.
4. If you cannot find the ISBN number, instead, locate and fill in the required info in the boxes.

The screenshot shows the NoodleTools citation tool interface. The 'Import' section is highlighted with a red box, showing a dropdown menu set to 'ISBN' and an adjacent text input field. An orange arrow points from step 3 of the instructions to this input field. Other visible elements include 'Citing: Chapter or Section' and 'from: Book' dropdowns, 'Submit' and 'Cancel' buttons, a 'Quick cite: Copy & paste a citation' link, and a 'powered by WorldCat' logo. At the bottom, there are buttons for 'Print', 'Web Site', 'Database', 'eBook File', and 'Microform'.

NOODLETOOLS APPLE/ANDROID APP

- Go to your app store, search for NoodleTools and download the free app.

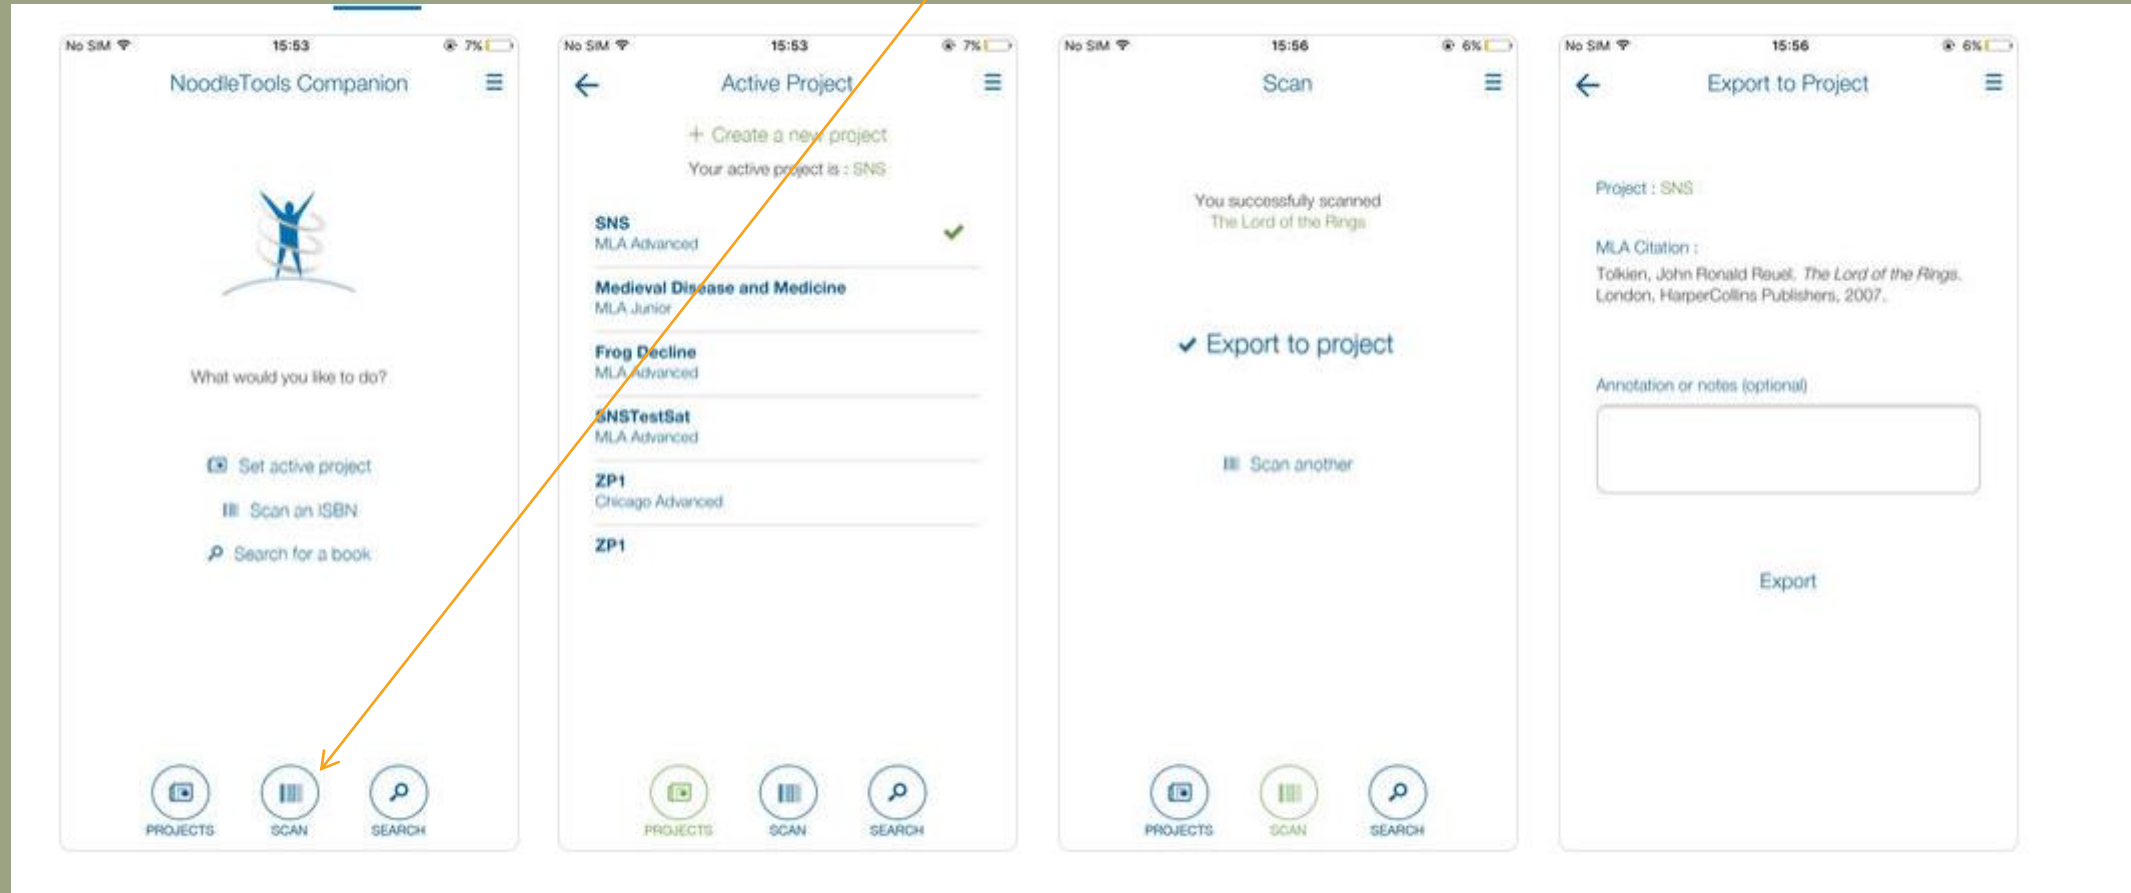

-- you'll notice that the app gets poor reviews; it's because it cannot do much...

EXCEPT, it can magically* scan the ISBN number on a book and put the complete MLA citation in your selected project☺

*it's obviously not magic, but since it does all the work for you, it seems that way

Then follow the directions on the screen – choose “scan” and it will essentially follow these steps .

CREATING A WORKS CITED PAGE IN NOODLETOOLS

1. Once you have your two sources in NoodleTools, create your Works Cited page and export it to Word (or [Google Docs](#), directions are here).

Note: do NOT just copy and paste the citations from the NoodleTools list (or directly from the databases), the formatting will be lost!

2. In your Sources list, choose “Print/Export” and choose to Word.

3. Now open the exported list and copy and paste it to the last page of your already-open 9th Grade MLA Intro document.

ADD IN-TEXT CITATIONS

- Last Step!
- On your 9th grade template, look at Page 1
- **Add the correct in-text citations in the parentheses... your two sources are on page 2.**
- Notes:
 - Remember, what goes in an in-text citation is the first word of the entry in your Works Cited – usually a last name if there is an author, if not it is the first word of the article title.
 - If the first word is in quotes, keep it in quotes.
 - For your book source, you need a page number; for this mock assignment, you can make up a page number – and just put the number, don't add 'page' or 'pg' or 'p.' example: (Smith 14).

What you will turn in will look something like this...

PRINT IT!

- Now print the assignment!
 - Our printer automatically prints double-sided
- Turn it in in the pile by the printer
- If you don't finish today, please finish and turn in on Thursday.
 - *and turn in the small check-off sheet there too*
