

# MLA INTRO ASSIGNMENT

# TO DO: THE GENERAL INSTRUCTIONS

1. In your new Project, you will add two sources:
  - One database (you have one open, copy and paste citation)
  - One book (using the ISBN number – or an app)
2. Make a Works Cited page with these two sources in NoodleTools.
3. Copy and paste this works cited to your Freshman MLA Intro Template you already made.
4. Add in-text citations (in the parentheses ( ) provided).
5. You will print this out and turn it in.

**Detailed instructions follow**... please work independently & feel free to ask questions of us.

Go to Library > Resources by Subject and click on "McGoorty"; this PP continues, start on page 2.

# ADDING SOURCES TO NOODLETOOLS

Choose “Create new citation” and select the source type...

You'll be adding:

- a database -- you already have an article open and found the citation
- &
- a book source -- there is one by your computer

Please be sure to always double-check your citations; here's an example - or check out [Purdue OWL](#).

Always check your citations (even the ones generated for you). They should look something like these

# ADD A DATABASE

Since all **databases** have the citations done for you, there is an easy way to copy & paste the citation into your project.

1. Go to the citation you found in the KCLS database (you should still have it open)
2. Copy the citation
3. Go back to your NoodleTools & select “Database” for citation type, then choose the first option “Original Content...”
4. Click on the Quick cite “Copy & paste” link
5. Paste your citation and “save”

Citing: Original Content from: Online Database

# ADD A BOOK

**Books:** *if you have an Apple or Android phone and can get a free app – skip this page and go to the next two pages (citing books is very easy in NoodleTools, and if you can get the app, it's even easier).*

For either these directions or the ones using the app – refer to the book near your computer.

1. Choose “Create new citation” > select “Print or in-hand” > then “Book”
2. When possible, find the ISBN number (on the back of the book, usually starts with 978)
3. And type the number in here, at the top of the page.
4. *If you cannot find the ISBN number, instead, locate and fill in the required info in the boxes.*

The screenshot shows the NoodleTools citation form. At the top, there are two dropdown menus: "Citing:" with "Chapter or Section" selected, and "from:" with "Book" selected. To the right of these are "Submit" and "Cancel" buttons. Below this is a "Quick cite:" section with a link "Copy & paste a citation". To the right of this is an "Import:" section with a dropdown menu set to "ISBN", an empty text input field, and a "Search" button. This "Import:" section is highlighted with a red box. An orange arrow points from the text in step 4 of the list above to this red box. At the bottom of the form, there are five buttons: "Print", "Web Site", "Database", "eBook File", and "Microform". A "powered by WorldCat" logo is visible in the bottom right corner of the form area.

# NOODLETOOLS APPLE/ANDROID APP

- Go to your app store, search for NoodleTools and download the free app.

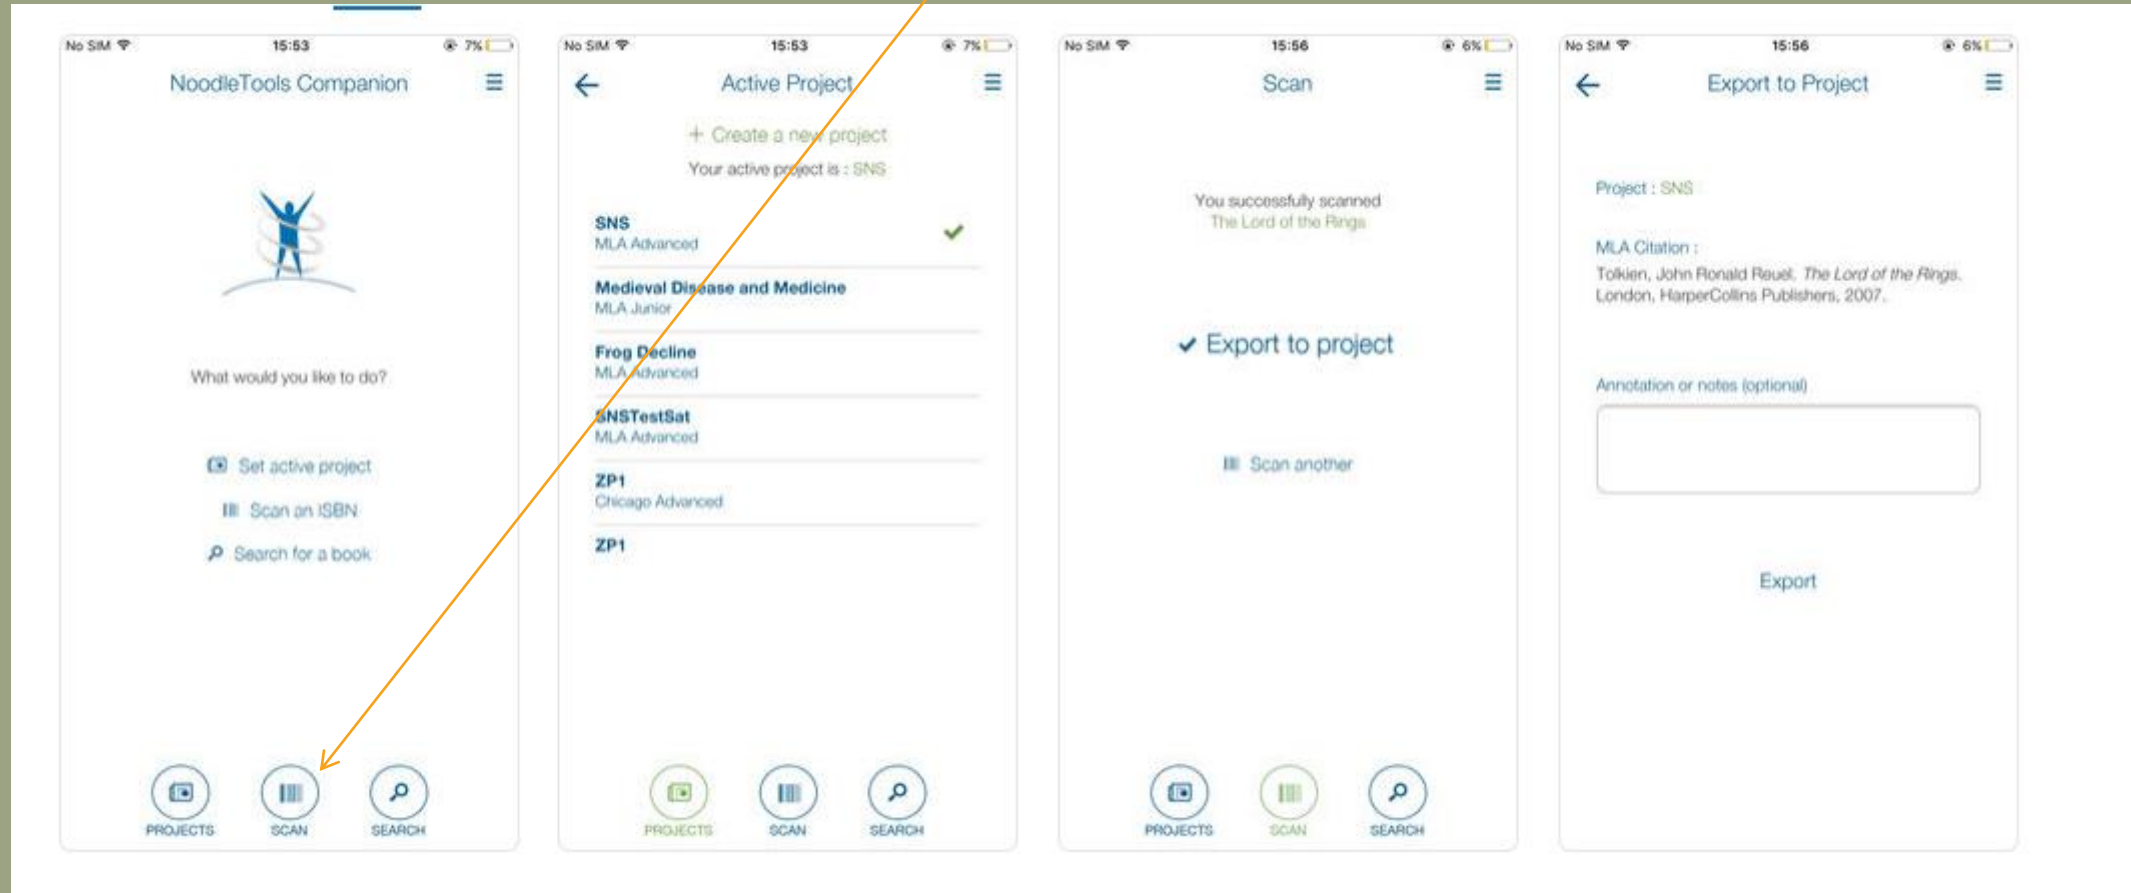

-- you'll notice that the app gets poor reviews; it's because it cannot do much...

EXCEPT, it can magically\* scan the ISBN number on a book and put the complete MLA citation in your selected project☺

\*it's obviously not magic, but since it does all the work for you, it seems that way

Then follow the directions on the screen – choose “scan” and it will essentially follow these steps .

# CREATING A WORKS CITED PAGE IN NOODLETOOLS

1. Once you have your two sources in NoodleTools, create your Works Cited page IN NOODLETOOLS and export it to Word (or [Google Docs, directions here](#)).

**Note:** do NOT just copy and paste the citations from the NoodleTools list (or directly from the databases), the formatting will be lost!

2. In your Sources list, choose “Print/Export” and choose to Word.

3. Now open the exported list and copy and paste it to the last page of your already-open Freshman MLA Intro document.

## ADD IN-TEXT CITATIONS

- Last Step!
- On your Freshman MLS template, look at Page 1
- **Add the correct in-text citations in the parentheses... you just placed your two sources on page 2 of this document.**
- Notes:
  - Remember, what goes in an in-text citation is the first word of the entry in your Works Cited – usually a last name if there is an author, if not it is the first word of the article title.
  - If the first word is in quotes, keep it in quotes.
  - For your book source, you need a page number; for this mock assignment, you can make up a page number – and just put the number, don't add 'page' or 'pg' or 'p.' example: (Smith 14).

# What you will turn in will look something like this...

Page 1

Page 2

<p style="text-align: right;">Jones 1</p> <p>John Jones Mr. Smith World Studies, period 4 October 1, 2018</p> <p style="text-align: center;">Tomorrow and Today</p> <p>This is what an in-text citation looks like for my first source on my works cited page (Fleming, 42). This is what an in-text citation looks like for my second source ("Nat King Cole").</p>	<p style="text-align: right;">Jones 2</p> <p style="text-align: center;">Works Cited</p> <p>Fleming, Candace. <i>The Family Romanov: Murder, Rebellion &amp; the Fall of Imperial Russia</i>. PRINT IT!

- Now print the assignment!
  - Our printer automatically prints double-sided
- Turn it in in the pile by the printer
- If you don't finish today, please finish and turn in tomorrow in class.
