4. You will print this out and turn it in.

CREATING A WORKS CITED PAGE IN NOODLETOOLS

1. Once you have your two sources in NoodleTools, create your Works Cited page IN NOODLETOOLS and export it to Word (or [Google Docs, directions here](#)).

Note: do NOT just copy and paste the citations from the NoodleTools list (or directly from the databases), the formatting will be lost!

2. In your Sources list, choose “Print/Export” and choose to Word.

3. Now open the exported list and copy and paste it to the last page of your already-open Freshman MLA Intro document.

ADD IN-TEXT CITATIONS

- Last Step!
- On your Freshman MLS template, look at Page 1
- **Add the correct in-text citations in the parentheses... you just placed your two sources on page 2 of this document.**
- Notes:
 - Remember, what goes in an in-text citation is the first word of the entry in your Works Cited – usually a last name if there is an author, if not it is the first word of the article title.
 - If the first word is in quotes, keep it in quotes.
 - For your book source, you need a page number; for this mock assignment, you can make up a page number – and just put the number, don't add 'page' or 'pg' or 'p.' example: (Smith 14).

What you will turn in will look something like this...
